

# Our industry solution “Captive-as-a-Service” offers comprehensive operational relief for Captives

## YOUR CHALLENGE

- The captive market faces numerous challenges, such regulatory and compliance burdens, market volatility, ESG.
- Technology and integration, data transparency and admin complexity are a particular challenge for captives and other participants in the captive market.

## YOUR BENEFITS

- ✓ Comprehensive operational relief from Captive management processes; modern IT platform and highly qualified processing.
- ✓ More data transparency, lower costs and improved „market dynamics“ (portfolio swaps amongst captives, more independence)

## WHAT WE OFFER

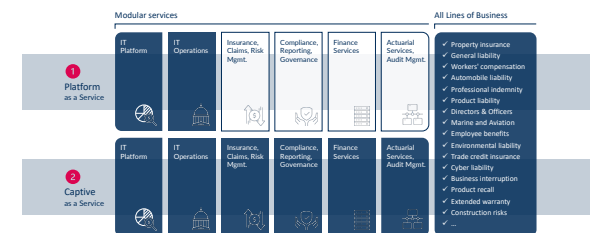

- LPP/msg offer a operations solution in the sense of a „enabling infrastructure“ for the captive insurance market.
- For PI Captives: We provide a future-proof technology platform plus professional services as an outsourcing solution.
- For RI Captives: We provide a market leading RI IT platform FS/RI.
- For Fronters/Industrial Insurers: We provide a Captive-MGA solution. I.e., the industrial insurer can use our platform and professional services to reduce costs, increase data transparency and work with RI-Captive more efficiently.

## OUR REFERENCES

- Our PI IT-system has been installed 23 times worldwide
- Our RI IT-system FS-RI is market leading
- Our professional services are used by Insurers from A-Z
